

HEP SURVEY GUIDANCE

Updated: 2/2/2022 8:08 AM

Gathering insight on ESG activities from each property is a fundamental piece of our environmental and social strategy. Starting in 2022, properties are required to complete our ESG survey in the HEP platform annually.

This document is intended to provide Four Seasons properties with guidance on the process to access, navigate and answer the survey questions on the HEP platform. Please contact esg.team@fourseasons.com with any questions about this document or the guidance provided within. Contact fs.support@heportal.net for technical issues with the HEP platform.

About HEP

The Hotel Energy Portal (HEP) is our sustainability management system, used to measure and manage the environmental footprint of each of our properties globally. To access HEP, log in [here](#).

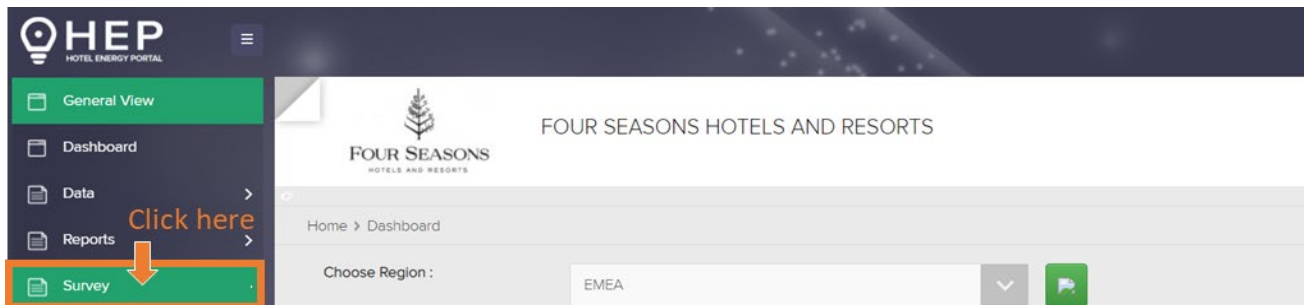

ESG Survey

We have expanded HEP to include an ESG survey, which will capture data and information about each property's ESG initiatives. This survey will be used to track progress towards our global ESG objectives and to identify achievements and opportunities across our portfolio. The data captured will also be a valuable resource for our Sales and Marketing teams, as it will enable your property to better respond to the increasing number of client requests for ESG data, including RFP requirements.

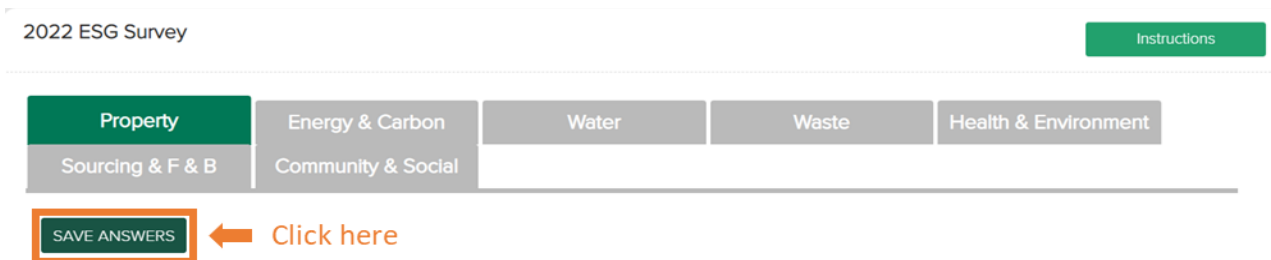

Your property's HEP lead should work with relevant department heads across the property to complete the survey. It is important to ensure the accuracy of the survey responses because the information provided in the HEP survey will be reported to Four Seasons leadership, shared with potential clients, and used to populate Sales and Marketing materials for your property.

FIRST TIME: Completing the survey

Location: The survey can be accessed in the left-hand menu column, just under *Reports*. See image below

Survey Form: There are seven categories, one in each tab. Each question has an explanation in gray text; please read each one carefully. Before leaving the page, make sure you click "Save answers."

Frequently Asked Questions

When is the survey due? All properties must complete the survey by mid-March of every year, the 2022 deadline is March 17th. You are also encouraged to review and update the survey on an ongoing basis as new initiatives are implemented at your property. The survey will be used to track progress towards our ongoing ESG goals and KPIs, so at certain points throughout the year we will ask you to review and update specific questions. This process will repeat each year.

Will I have to redo this every year? The survey answers will be stored and will remain available for future years, so you will not have to redo the entire survey each year. Questions may be changed or added as we continue to progress our ESG programs.

How will this information be used? The information collected in the ESG survey will be used in several ways, including:

- a) Track how our ESG initiatives are being implemented over time to ensure we are meeting our property- and corporate-level objectives, including tracking progress towards our annual field goals and KPIs
- b) Centrally populate the ESG-related surveys issued by corporate clients, search engines, and online platforms such as Google, Booking.com, etc.
- c) Inform external reporting, such as our annual ESG reporting
- d) Identify best practices, challenges, and opportunities for improvement across properties and regions
- e) Gather stories and best practice examples to share internally

What happens if I don't know the answer to a question? This survey covers many different areas and will require collaboration with different teams from across your property. If you are unsure of how to answer a question, please first reach out for guidance to the leaders of [Green Team](#). If you are unsure about the meaning of a question or if you require further guidance and assistance, please reach out to the [Four Seasons ESG Team](#).

Can we have access to the report with all questions and answers to our own property? Yes, we will make your property's answers available for download, for your reference.

If I have a suggestion for improvement or to add a new question, who should I contact? Please reach out to the Four Seasons [ESG Team](#) with your feedback, we welcome it!
