

ORGANICS PLAN – FOOD PERMITTED BUSINESSES ONLY

ANNUAL | 2022

Four Seasons Hotel Austin

The City of Austin has a goal to reach Zero Waste by 2040. The Universal Recycling Ordinance (URO) supports this goal by requiring food-permitted businesses to provide their employees convenient access to diversion options that keep organic material out of the landfill. Food-permitted businesses must report how they meet these organics requirements by filling out an Organics Plan every year, starting October 1.

Requirements

The City of Austin requires all food permitted businesses to provide employees access to diversion options that keep organic material out of the landfill.

Organic material can include:

- **Extra or unsold food**
- **Food scraps, expired food, coffee grounds**
- **Paper towels (including bathroom) and paper napkins**
- **Landscape trimmings and floral décor**
- **Food soiled paper or cardboard (e.g. pizza boxes, 100% paper food containers, coffee filters, tea bags)**
- **BPI-certified compostable items (e.g. bags, utensils, cups and plates that are labeled as “Compostable” on the item)**

Does the business generate organic material? *

- ☒ Yes
- ☐ No

What organic material does the business generate? Select all that apply *

- ☒ Extra food or unsold food
- ☒ Food scraps, expired food, or coffee grounds
- ☒ Paper towel (including bathroom) or paper napkins
- ☒ Landscape trimmings or floral décor
- ☐ Food soiled paper or cardboard (e.g. pizza boxes, 100% paper food containers, coffee filters, tea bags)
- ☒ BPI-certified compostable items (e.g. bags, utensils, cups and plates that are labeled as “Compostable” on the item)
- ☐ Other

The City of Austin requires food permitted businesses to meet the following 4 organics diversion requirements:

1. Organics Diversion Option Requirement

Provide employees access to at least one organics diversion option. Organics diversion options can include:

- Food waste reduction programs
- Food donation to people
- Food to feed animals
- Compost

2. Education Requirements

Educate employees within 30 days of hire, every year thereafter, and whenever there is a change in the program. Education must be provided in print or electronically in two languages. Education materials must cover the materials accepted and the location of indoor bins or shelves and outdoor containers, if provided. Education must be tracked.

3. Sign Requirements

Label all outdoor containers and any indoor bins or shelves devoted to organic diversion. Signs must identify the material accepted or diversion option (e.g., food donate, feed animals, composting). All signs must be in two languages.

4. Convenience Requirements

If provided, locate all outdoor organics containers within 25 feet of an outdoor landfill trash container.

1. Organics Diversion Requirement

The Universal Recycling Ordinance requires all food permitted businesses to provide access to organics diversion to employees. Select all the diversion options you currently offer from the list below.

Inventory management (e.g. cooking to order, reducing price or promoting daily specials to use food near expiration, using a food waste log, first-in first-out storage etc.)? *

☒ Yes ☐ No

Reduce food waste through inventory management: (Check all that apply.) *

☐ Vendor take-back program

- ☒ Cook to order
- ☒ Use food near expiration
- ☐ Discount leftover or surplus items
- ☐ Other

Purchasing (e.g. purchasing in smaller batches more frequently to reduce spoilage, etc.)? *

☒ Yes ☐ No
