THANKS
for the
opportunity

Dear Customer,
Many thanks for giving us the opportunity to quote for your customer's electricity supply.
We'd love to welcome you as a Bryt Energy customer, so we very much hope this contract delivers the value that you're looking for.

Next steps

Please read through this contract note and our attached terms & conditions.
Once you're happy to proceed, you'll need to:

1

Sign (if you have the authority) or get your customer to sign Part 4 -
to offer to enter into a Legally Binding Contract.

2

Ensure that your customer has agreed to any credit requirements that have been requested by us.

3

Email this signed offer back to quoteme@brytenergy.co.uk
to ensure you benefit from these terms.

We can only consider accepting your signed offer once all these elements have been satisfied and your customer has met any credit requirements.
Once we've successfully validated the signed offer, we'll email you back with our acceptance.
If you have any queries about this contract, please don't hesitate to contact us – **we're always here to help.**

Other key information to be aware of before signing

Pass-through charges - Where pass-through is stated in relation to a Charge, it means We will charge You an amount equal to the costs We incur.

Green Deal customer? - If you're a customer of the UK government's Green Deal scheme, you need to let us know as soon as possible as we will be unable to supply your property.

What happens if there are material changes to your consumption - If there is anything that could change the electricity consumption at your property (including generation or storage installations, any Demand Side Management activity, or planned shutdowns) you need to let us know. If your actual consumption were to change by more than the agreed percentage (known as the Material Amount as presented in Part 2) compared to your forecast, then you may be liable to additional charges as set out in Our Supply Terms and Conditions.

Terminating your contract - You can write to us at any point to terminate your contract with us. However, termination will only take effect from the end date of the Fixed Price Period (as provided above). If you terminate the contract after the end date of the Fixed Price Period, termination will take effect from the date Bryt Energy ceases your supply. If you haven't signed a new electricity supply contract with us by the end of the Fixed Price Period, you will be placed on our out of contract rates once the Fixed Price Period ends. Please note that these rates may be higher than those associated with a fixed price contract. You can move off these rates at any time by agreeing a new Fixed Price Period contract with us or by moving to another supplier.

Agent fees - the Charges may include a fee which You have agreed to pay to Your Agent (an energy broker, consultant or other third party) and which We have agreed to collect from You and pay to Your Agent on Your behalf.

Part 1 Contract Fuel Mix

The carbon content of your forecasted contract consumption

YOUR CONTRACT FUEL MIX AND CARBON CONTENT		
Fuel mix	% of total	
	Your electricity supplied by Bryt Energy	Average for UK (for comparison)
Coal	0%	2.7%
Natural gas	0%	38.2%
Nuclear	0%	16.1%
Renewables	100%	40.3%
Including:		
Hydro	✓	
Solar PV	✓

Waste to energy	✗	
Landfill gas	✗	
Other	0%	2.7%
Total	100%	100%
Environmental Impact		
CO ₂ emissions	0g per KWh	193.6g per KWh
Radioactive waste	0g per KWh	0.00113g per KWh

Your total forecasted annual energy consumption is:

636,440
kWh

Based on the national average figure* for carbon emissions, the carbon content of your annual electricity consumption would be:

123,215
kg CO₂

With Bryt Energy, your carbon emissions for your annual electricity consumption will be:

ZERO

* National Fuel Mix disclosure based on Average Carbon emissions from all UK generated electricity (which is 193.6g CO₂/KWh for the year 2020/21). The unit of g CO₂/kWh is the grams of carbon dioxide for every kWh of electricity generated.

Part 2 Property and charges

Property name	TCR Band	Supply number	Product name	Forecasted annual supply (kWh)	Requested supply start date	Capacity
GROSVENOR SQUARE	Band 4	00845084 1200062157250	Pure Flex ~ HH	636,440	01/01/2022	152 kVA

Additional Charges Include: , Meter Operator, Data Collector & Data Aggregator (if not customer appointed). Your fixed price has been determined on the assumption that amendments to certain industry agreement(s) will be made to reflect the conclusions of Ofgem's "Targeted Charging Review" and that those amendments which relate to DUoS will be implemented in April 2022 and those relating to TNUoS, in April 2023. In the event that the final approved implementation timing is different, then we reserve the right to revise your prices to reflect those changes.

The pricing band set by Ofgem pursuant to the Targeted Charging Review which applies to each Property for the purposes of calculating the Use of System charges payable by you ("TCR Band") has been estimated based on your kVA. Changes in your actual TCR Band may result in changes to your Charges.

Part 2b (Excel file) provides full comprehensive details and charges for each property listed in Part 2a.
